

**CRG Consulting**

Proven Expertise

*Assessment Services. Virtual & Live Facilitation.  
Special Learning Solutions***Summer Musings from Chris**

We're all beginning to experience how the "new normal" of COVID-19 may evolve. Many states including mine, Massachusetts, are opening up and providing more options for people to share space, spend time with friends and families, and even in some cases, hug one another. We could have never imagined the value and importance of such a small gesture a few years ago.

Even with these changes, there continues to be a very strong emphasis on remote learning, and a new perspective on the great opportunity we have to offer new skills, formats, and approaches to developing our teams and our organizations' workforces.

Right now many organizations are reassessing their leaders, managers and their own cultures. **CRG Consulting** is working with several clients using our [20/20® Insight Customizable Assessment Software](#) for unique 360 Feedback solutions tailored to your specific needs. Clients are also requesting those critical [Employee Engagement Surveys](#) to reassess their levels of employee engagement and the impact of the past year on their culture.. If your business is recognizing a need for these assessment services as you emerge from a year of remote work, please give me a call to discuss how we can assist.

At **CRG Consulting**, we offer a variety of virtual learning solutions to help you improve as professionals, teams, and organizations. We continue to offer our clients [Virtual Learning Offerings](#) and some very new programs that reinforce by a "return and learn" approach to help make learning stick! There are many benefits to virtual facilitation and yes, it can be a very engaging experience!

**Scroll down to view the video intro to our newest digital offering, "DiSC® Workplace on Catalyst™" online learning platform! Not only is the Everything DiSC Workplace program available through Catalyst™, but we now offer the DiSC-based AGILE EQ™ program,**

which explores the layers of "mindsets" needed to be most effective in one-on-one communication as well as in team interactions.

New Offerings on The Wiley Catalyst™ Platform
